MLS Corner**Rapattoni Update**

Listings from San Francisco and BAREIS are now on Paragon, but some are without photos. Photo URLs will remain inactive until Rapattoni finds a faster solution. Here's what this means for members:

1. Some listings from SFAR and BAREIS will display "No Image Available."
2. The majority of new listings since August 28 are not affected.

Note: The photo issue affects everyone. SFAR and BAREIS advised their members to remove broken photos and reupload. Once they do so, Paragon will be able to display the listing photos.

If you have any questions, please contact our Support team at 925.730.7100.
